

## *Wat's the Goss?* with Anon

The petition for the Guyra MPS to retain the name Guyra War Memorial Hospital is at Sole's Newsagency ready for signing.

### **Guyra's news in *The Australian***

Guyra got a mention in *The Australian* of Wednesday April 26 on page 37. The headline read, "Top of the range tomatoes sauce up a tablelands town." The article by Jo Studdert starts with, 'Few tales of rural regeneration could rival that of the rebirth of Guyra...' and tells the story of the glasshouse from the purchase of the land to the new glasshouses being planned.

David Bearup speaks about the rise in property values and the increase in rental demand since Costa's brought the industry here and the further surge in demand now that stage two is underway.

Costa's says, "We are proud that we've started a new industry in a town that was struggling and we have helped it, because it has certainly gone out of its way to help us."
